**PERSONAL STATEMENT:**

I am pleased to submit my name for the position of SFO Vice President. Over the past decade, I have supported and helped many of you with our ever-changing job and contract when I would help as a MOD here in San Francisco. Many of you called with questions about our APFA contract, hotels, crew legalities and more. When you called, I answered. I found the information you needed. It didn't come naturally. I had to learn it all to support you as this still stands true today and with what I have learned, I feel that I can represent SFO Proudly.

These past few years and moving forward we are entering challenging times with AA schedulers violating our JCBA Contract, reduce rest, illegal sequences and pressuring Flight Attendants to get to the airport ASAP by violating our contract. In short, when you call me for help, I will be there to assist you and help you.

Although this may be my first position within APFA, and if elected as Vice President, it would be an honor to serve each one of you at our mighty SFO base. I know that PJ Toms and I would make a great team working for the common goal of everyone.

My goal if elected is to advocate on your behalf for better schedules, support you when you need assistance/advice or union representation. We have a wonderful base here at SFO and it would be my pleasure to represent you.

**PERSONAL STATEMENT:**

I understand I am not the most senior nor experienced flight attendant for the SFO APFA Vice President position; however, I am passionate, willing to learn and listen and do not back away from confrontation. In previous careers I worked with courts of law, work grants for program funding, advocated for survivors of assault and abuse, negotiated with school boards, worked with various media outlets as an agency spokesperson, wrote curriculum for the State Army National Guard, and collaborated within multiagency task forces. The next phase of leadership will have its challenges and triumphs as we begin negotiations for a new contract; having that said, being a junior flight attendant with career experience outside of flying will serve me and ultimately our work group well. I can speak to both private and government work rules, pay structures, budgets and morale in contrast to our current working environment.
